

**Little Traverse Bay Bands of Odawa Indians
Natural Resource Commission
4th Quarterly Report
October – November - December 2018**

Little Traverse Bay Bands of Odawa Indians
Natural Resource Commissioners

John Keshick III, Chairman

Renee Dillard, Vice-Chairman

Frederick Holdorph, Treasurer

Gerald Chingwa, Commissioner

William Ortiz, Commissioner

The Natural Resource Commission is continuing to work on the Great Lakes Consent Decree for 2020 to define specific issues in areas of the Decree that were not completely specified or clarified at the time of signing the Decree in 2000. Many issues have arisen from the implementation of the 2000 Consent Decree and the changes of Whitefish or lack of Whitefish and Lake Trout being abundant. Due to the ever-changing ecosystem in the Great Lakes many areas of the 2000 decree has been amended by the Tribes, Federal Government and State of MI once an agreement has been reached. There are many areas that come up that have not been agreed upon or changes that are agreeable to all parties, there are some of the areas that will be addressed in the future decree and discussion will be held right up to the time of reaching an agreement.

The importance of the upcoming Great Lakes Consent Decree is a 20-year Decree and the current Decree will expire in 2020. There are many important changes that have had a great effect on LTBB Commercial Fishermen in the last 18 years that will need to be addressed in the upcoming 2020 Decree. The Natural Resource Commission meetings held on the 4th Wednesday of each month will have time set aside for the 2020 Great Lakes Consent Decree negotiations.

The Natural Resource Commission and the Natural Resource Department continue to lead in the enforcement, conservation and management of tribal natural resources by successfully and responsibly preserving the LTBB's sovereign right to hunt and fish, both on the inland lands and waters as well as commercial and subsistence fishing on the 1836 Great Lakes. Utilize our natural resources in order to promote, honor and respect our traditional, spiritual and physical relationship with the land and waters for the future benefit of our Tribe.

LTBB Natural Resource Commission Meetings Attended:

- October 13, 2019 Annual Hunting Fishing Meeting – Grand Rapids, MI
- October 18 - 19, 2018 CORA Work Shop – Bay Mills, MI
- October 25, 2018 CORA Meeting, - Petoskey, MI
- November 14, 2018 Regular Scheduled Meeting
- December 6, 2018 CORA Meeting – Traverse City, MI
- December 12, 2018 Regular Scheduled Meeting

The Natural Resource Department is comprised of 4 divisions: Conservation Law Enforcement; Great Lakes Fisheries; Inland Fisheries and Inland Wildlife. The Natural Resource Commission and the Natural Resource Department assist in the development of Policies that have become necessary for the implementation of the Inland Consent Decree. Some of those policies developed are for species that LTBB has a season for such as the Bear Policy

Sturgeon Policy and Elk Policy. The Natural Resource Protection Statute is developed to assist the LTBB Conservation Officers in the field and to allow for Conservation Officers to have the authority to check persons in the field to ensure that they are abiding by the rules and regulations. The Natural Resource Protection Statute will allow for Conservation Officers to check ID's and Licenses of persons encountered in the field to determine tribal jurisdiction vs. State hunters and fishers.

Natural Resource Commission

The Natural Resource Commission is comprised of 5 Commissioners with staggered 4-year terms, currently the commission has all 5 positions occupied.

LTBB Rules and Regulations

- The LTBB Natural Resource Rules and Regulations for both Reservation and Ceded Territory for 2019 is currently a work in progress. The Commission has a timeline that is followed to complete the next years regulations.
 - The Natural Resource Commission reviews comments from surveys and takes into consideration the comments to make the appropriate changes to the Rules and Regulations accordingly.
 - The LTBB Natural Resource Department Programs also reviews the Rules and Regulations and makes suggestions on any updates that will apply to the 2019 Rules and Regulations.
- The Rules and Regulations are subjected to change every year according to the LTBB Citizens comments from harvest surveys that are completed by tribal citizens when renewing their licenses, Conservation Law Enforcement input, Biologist studies and modeling and changes to the State of MI Regulations.
- The Natural Resource Commission passed Emergency Regulations for the 1836 Treaty Ceded Territory of Michigan Effective August 29, 2018 regarding the Chronic Wasting Disease Core (CWD) Areas which includes 5 Counties and CWD Management Zone to include 16 counties.

Natural Resource Commission/Department Programs

The Natural Resource Commissioners have assisted the Natural Resource Department with various workshops:

- Youth and First Time Hunters program, scheduled for October 27, 2018;
- Deer Processing Work Shop, scheduled for October 29, 2018;
- Bear Season opened on September 8, 2018
- Elk Orientation Mandatory Meeting for all LTBB elk hunters;
- The Elk Season – December 8 – 16, 2018

These programs/events have had a positive reaction from Tribal Citizens and participation from tribal citizens, these have become annual events and the

Natural Resource Department Staff and the Natural Resource Commissioners have received positive feedback from the participants and the LTBB Community.

The Natural Resource Commission would like to thank Little Traverse Bay Bands of Odawa Indians Tribal Chair's Office for recommendation to Tribal Council for their appointments to the Natural Resource Commission.
